PREVIEWS FROM THE EDITOR

HALLOWEEN IS (HOPEFULLY) HERE!

Last year, the Covid-19 pandemic turned October 31st not into "The Night He Came Home", but "The Night Nobody Came Around". Halloween 2020 was, for me and my neighborhood, a total bust. So, all the comics and little toys that I had pulled for trick or treaters went into a box marked "Halloween 2021" along with all of my spooky decorations.

A year later, more and more people are vaccinated, and I think folks are ready to get out and celebrate the spookiest night of the year once again. Hopefully I'll be handing out Halloween goodies this year! (Skeleton) Fingers crossed!

Meanwhile, in this issue, we're getting ready for the holidays with our annual survey of great *Gift Ideas* for fans and collectors. We've got a great selection of books, graphic novels and other stuff that would make great gifts for Christmas and Hanukkah... or *birthdays* for those poor unfortunates born around the holidays. (Hopefully that equals *two times* the gifts for you!)

Our *Gift Ideas* theme this month coincides with the release of our annual

PREVIEWS Holiday Gift Guide Catalog, which will be available from your favorite comics shop this November, just in time for the holiday shopping season! It's filled with all the latest and greatest in Graphic Novels, Games, Toys, and other can't-miss gift items! Be sure to ask for your copy from your favorite retailer.

But until then, this issue of **PREVIEWS** should serve as your springboard to gift-giving. You can start your search on page 208 of this issue, where our product specialists have gathered a small sampling of some great giftable graphic novels and books!

That's all for this month, dear readers. I hope you all have a Happy Halloween!

Your Pal @ **PREVIEWS**,

Guide #51 Tops Diamond's Bestselling Books List

The Overstreet Comic Book Price Guide #51 took the number one spot in Diamond's Top Books category in July 2021, the company announced on August 24. Additionally, all three editions were among the top ten bestsellers. The softcover edition achieved the #1 slot, the hardcover edition followed at #2, and *The Big, Big Overstreet Comic Book Price Guide* #51 was #7 on the bestseller list.

These results follow a trend in recent years that has seen the *Guide* atop Diamond's book category. "We've come to expect that the *Guide* will be highly ranked in the sales charts when it is released each year, and *The Overstreet Comic Book Price Guide* #51 did not disappoint," Steve Geppi, Chairman and CEO of Geppi Family Enterprises and President of Gemstone Publishing said. "I think this signifies just how strong the comic book market is at the moment."

Lost Universes: The Ultraverse's Break-Thru

The Ultraverse launched in June 1993 with *Prime*, *Hardcase*, and *The Strangers* as their lead releases. Despite having a clear continuity since their debut, the line's first official crossover,

Break-Thru didn't arrive for a few months. Picking up directly from the pages of *Exiles* #4 (Series 1), *Break-Thru* #1 brought together all of the events that had been set up in the individual Ultraverse titles to that point.

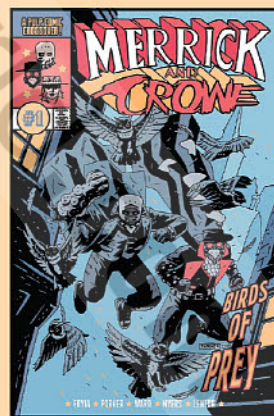

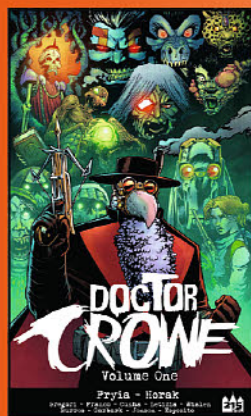

In the series, characters such as Firearm, Night Man, Freex, Sludge and Warstrike joined the Prime, Hardcase, Prototype and others in a story that explored the origins of the ultras (their world's term for super-humans). Events snaked their way throughout the entire line of Ultraverse titles, reaching its conclusion in *Break-Thru* #2, in which Prime, Hardcase, The Solution, The Strangers, Prototype, Mantra, and Choice converge on the moon to try to solve the mystery behind the origin of all Ultras.

Creator Bio

Corey Fryia is a Canadian comic book writer. He is the writer/co-creator of *Doctor Crowe* from 215 Ink. Corey currently resides in South Central Kentucky with his two dogs, an amazing wife and an unhealthy obsession with all things *Star Wars*!

What are your favorite projects you've contributed to over the past decade?

I've been fortunate enough to contribute to, in both an editing and writing capacity, several projects that I'm proud of, but *Doctor Crowe* (See Page 355!) is and forever will be my baby. The road to get *Doctor Crowe* into comic shops across the globe was anything but smooth, but the reception to the release of the initial mini-series is was something I never could have dreamed of. When the first issue sold out at a retailer level, I was absolutely floored. I never could have imagined that people would connect with Doc and Nora in the way they did, but it was a nice affirmation that we were all clearly doing something right. Dr. Victor Crowe is a character I will forever hold near and dear to my heart for this reason. All things considered, what better hero than a plague doctor in 2021, am I right?

What are you currently working on?

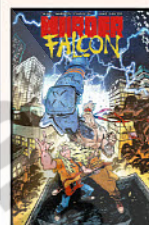

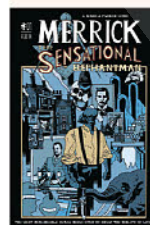

Right now, I'm currently working with 215 Ink on preparing everything for the much-belated release of the *Doctor Crowe Vol. 1*, a collection of the mini-series *Merrick and Crowe: Birds of Prey*, and more! Beyond that, I am currently only focused on further contributing to the *Doctor Crowe* mythology. That's not to say I wouldn't entertain something else if the offer came along, but *Doctor Crowe* is where my head is at and hopefully I will be awarded an opportunity to write some more *Doctor Crowe* comics in the near future. Fingers crossed!

What fun titles are you reading?

Merrick: *The Sensational Elephantman* is everything I could possibly ask for in a comic. I was fortunate enough to collaborate on a crossover one-shot, *Merrick and Crowe: Birds of Prey*, and it was an absolute blast. The duo of Tom Ward and Luke Parker are amongst one of my favorite creative teams in all of comics. I can't stress that enough.

Deadly Class (Vol. 1: Reagan Youth TP / MAY140626) from Rick Remender, Wes Craig and Lee Loughridge is a series I've been on board for since day one. Not only do I adore Wes Craig's wild art, but Rick Remender has been a source of inspiration for me as a writer for many years now. When I was first getting started, *Fear Agent* was basically my Writer's Bible.

Even though the series has since come to a close, *Murder Falcon* (APR190061) from Daniel Warren Johnson and Nate Spicer was a thrilling ride. Daniel Warren Johnson is somebody I met early on in my writing career and it's been amazing to see the industry finally recognize how amazing his storytelling ability is and embrace him with open arms. You'd be hard-pressed to find somebody more deserving.

USER'S GUIDE

There's a lot of awesome comics and products to look through in **PREVIEWS**. "A lot" might be a bit of an understatement, as each month's catalog is filled with hundreds and *hundreds* of pages of upcoming comics and related merchandise! It can be easy to accidentally overlook a new series you've been dying to read or a figure you've been pining to add to your shelf when there's so many things to browse. That's why we've put together this guide to help you learn how to use **PREVIEWS** like a pro to order the awesome titles and products you want!

WHAT EXACTLY IS PREVIEWS?

PREVIEWS is part catalog, part magazine (we call it a *Mag-a-log!*) of monthly listings of all of the upcoming comic titles and related products from your favorite publishers and manufacturers in one convenient place. And don't worry—**PREVIEWS** is organized by publisher and product type (and color-coded to boot!), to make it easy to find and flip to the section or items you're looking for. Each item listing has the information you need, such as format, size, page count, price, release date, stock or item code, and descriptive text, and nearly every listing is accompanied by artwork or images.

The most important aspect of **PREVIEWS** to remember is that items solicited in the catalog are anticipated to ship 2-3 months later (or more). For example, if you found a comic you wanted in the May issue of **PREVIEWS**, you can expect to see

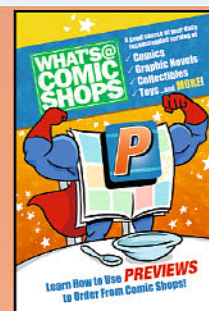

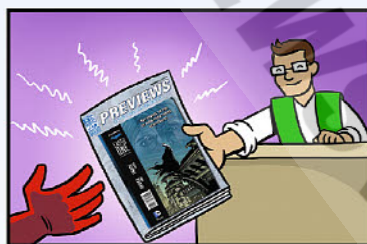

it turn up in your local comic shop in July. The catalog can be a great resource for figuring out where your favorite comic series is going, or for discovering new ones that you'll want to add to your library—not to mention all the other awesome products!

HOW DO I ORDER FROM PREVIEWS?

When you've picked out all of the items you want, you can fill out the **Short Order Form** included in your copy of **PREVIEWS** and submit it to your local comic shop. You can also ask your friendly neighborhood retailer about obtaining a **Customer Order Form**, a booklet that contains a complete listing of all the items made available for that month. These forms make pre-ordering your

comics and products a breeze and can help your local comic shop decide what to stock in the store for other customers, too! Be sure to also ask

your retailer about their **pullbox** or **subscription service**. Once you've submitted your order, you can sit back and relax, or try to contain your excitement until your comics and merchandise arrive!

October 2021 | Edited By: Allyn Gibson | editor@PREVIEWSworld.com

JOE BENITEZ'S STEAMPUNK HEROINE LADY MECHANIKA COMES TO IMAGE COMICS

This October, Joe Benitez returns to Image Comics with his award-winning steampunk superhero series *Lady Mechanika*. First published by Aspen Comics a decade ago, then by Benitez Productions, *Lady Mechanika* is a compelling action-adventure series set in the Victorian era, centered on a woman whose limbs were replaced with mechanical appendages for reasons unknown.

Following up on the Free Comic Book Day special, writer/artist/creator Joe Benitez and artist Beth Sotelo reveal the steampunk heroine's long untold origins in Image's *Lady Mechanika: The Monster of the Ministry of Hell*. Trapped in an asylum, filled with freaks and monsters, a young woman is surgically mutilated. Who was she? Who did this to her? To what purpose? We spoke to series writer **DAN WATTERS** (**LUCIFER**, **HOME SICK PILOTS**) to ask him what fans can expect from this new series...

DAN WATTERS

COVER A BY SUPERSTAR ARTIST
STANLEY "ARTGERM" LAU

Hey Dan, thanks for taking the time to chat with us about your new upcoming comic series Cowboy Bebop. Firstly, what got you into reading comic books?

When I was about 8 or 9 I was gifted Claremont/Miller's Wolverine and Graham Higgins' adaptation of Pratchett's Mort on the same day. I'd read comics a bit before that, but those two really blew my mind, and I read them over and over. Really special books to me, even today.

You have worked on a lot of dark, horror-themed stories in the past like Lucifer, Wolfenstein and Coffin Bound. How does working on Cowboy Bebop compare to your other titles?

In life, things can be funny and dark and scary and dull and sometimes manage to be all of that at once.

If fiction can reflect even a tenth of that, I think it's doing a great job. I think part of what draws me to Bebop is that the stories the show tells reflects this, too. You never quite know what to expect going in.

Were you a fan of the show before you agreed to work on the comic?

I adore the show - I think it's one of the best things on television. It's something that works so well episodically, shifting tone and style effortlessly, and yet-when put all together, when you've reached its end- becomes a whole which really comments on what it means to be human.

What can fans expect about the story for this new series?

Explosions, gambling, space exploration, explosions, dogs,

conversations on the nature of humanity and supernovas, and also some more explosions.

Did you have a particular character from the series that you really enjoyed writing for?

That's honestly changed more issue by issue than I expected- in issue 1 it was probably Jet, right now I'm working on a script in which Faye has been a lot of fun. We're also introducing a new villain called Bob, who's a blast to write.

What do you think has made Bebop so lasting?

The strength of good storytelling. Tell us a good story, quicken our pulses and break our hearts, and we'll come back to forever and ever. I know I will, at least.

Twenty-five years ago, a genuine masked hero came out of nowhere to declare war on crime. All of America celebrated the exploits of the black-clad vigilante as he took down one law-breaker after another . . . and *then he disappeared*. A desperate mother's five-year search for her missing son leads her to the small town of Brimount and to the mysterious Phillips family. Daisy Phillips, like many teenagers, has a hard time fitting in, but not for the usual reasons. Daisy stands eight-and-a-half feet tall and is still growing, but her troubles with ill health, daily ridicule, and custom-made clothing are only the tip of the iceberg. Daisy may well be descended from a race of cannibalistic giants spawned from the outcasts of Heaven!

Colin Lorimer is one of graphic fiction's emerging unique creative voices, and *Daisy* is a tale unlike any other, a singular vision both horrific and beautiful.

Usagi's newest adventure finds him fighting in a war alongside an old teacher and strange new allies—and helping a new friend complete a mission!

Usagi seeks out an old teacher, Sojobo, but upon finding him, learns that a new brand of Tengu mountain goblins have invaded the Western Peak. Savage and relentless, they are determined to drive the established Tengu out and prey upon the people of the area. For the first time, Usagi must ally himself with yokai against an even greater enemy, in "Tengu War!"

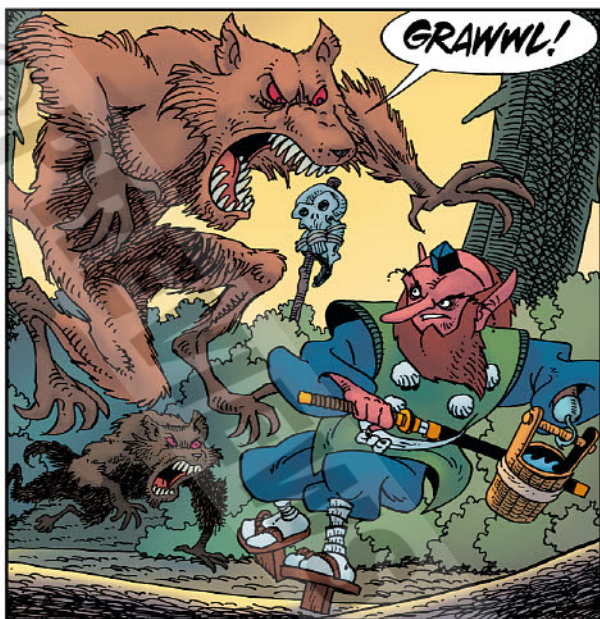

Then, in "The Master of Hebishima," Usagi delivers a basket of lizards to an eccentric monk who lives on a remote island infested with snakes, where he learns they share a history that goes back to the Great Wars and the Battle of Adachi Plain where Usagi became a ronin.

In the final story, "Yukichi," Usagi encounters a young swordmaster carrying out the dying wish of his own master. Yukichi must deliver Itsuki-Sensei's swords to his nephew, Daido, who will take over his school, however, they must pass through the territory of a rival school intent on preventing them from completing their mission.

This third volume collects issues #15–21 of the all-new full-color *Usagi Yojimbo* series published by IDW.

Celebrate the 40th anniversary of the debut of *The Rocketeer* in comics with this beautiful book showcasing the art of one of comics' masters!

In April of 1982, *The Rocketeer* debuted as a backup feature from Pacific Comics. From those humble beginnings the artistry of Dave Stevens caught the imaginations of countless readers and became a worldwide sensation, even being turned into a big-budget feature film! And in 2010 when IDW launched its award-winning Artist's Edition series, *The Rocketeer* was the inaugural release, even winning two coveted Eisner Awards that year. The book quickly sold out and went into a second printing. Now, more than ten years later, *The Rocketeer* is soaring back with a new 40th anniversary printing.

As with all Artist's Editions, the pages reproduced in this book have been meticulously scanned from the original art. Readers will be able to peruse these pages and see all the quirks and nuances that make original art so unique—blue pencil notations, white out, gradients in the ink, and so much more. Unless you were looking over Dave's shoulder as he painstakingly drew these pages, this is your best chance to see the art of *The Rocketeer* as close to the originals as possible!

LEGEND CHRISTOPHER PRIEST SHARES THE HONEYMOON DETAILS!

It's been a long road from that initial Free Comic Book Day issue of Vampirella to here, let alone everything happening in the world off the page. What keeps you tapped into the world of Vampi and wanting to explore more stories?

My mortgage.

No, seriously—the book's been much more fun than I imagined it possibly could be. The restraints and cautions and handcuffs and scolding I expected from a publisher or licensor never actually appeared. I kept doing outrageous things and Dynamite kept letting me.

Truthfully, I don't think much of what we've done has been all that outrageous. They seemed outrageous at the time because, at most publishers the standard is changing "no" into "yes." This has been a refreshing experience, to be permitted to explore the character in real depth and with all the implications of her premise, which includes hot topics like sexuality, religion, and social conflict in America.

I had and still have no agenda, as has been suggested. I'm merely doing what a writer should: examine the character as originally created and follow the implications of that premise where they lead. In the case of Vampirella, the destination most often includes whirling knives.

So... they totally got married, right? Not a twist, not a dream, not an imaginary story?

They got married. That's not in question. What is in question, is this guy really Dracula? Or, more accurately, is he destined to become Dracula?

One way or another, the prince of darkness appears in every issue, and in every meaningful sense, it is Dracula himself who is driving the story. But it is an unusual story, one I personally have never read before, about humanity: the humanity in Matt Ecsed Vampirella is desperate to save, Matt's human emotion and genuine love for her which complicates his already very complicated life, and the looming specter of Dracula threatening all of it.

Though readers can jump right into this series, we are following up from the climactic Vampirella #25 - and developments in issues #23 & 24. What's the quick 411 on what has lead to this union?

Most of what any reader will need to know will be recapped in UNHOLY #1, but here goes:

Fifty years ago, Dracula took a new bride, a young girl he met, I guess, in a nightclub. Cadiratra, a vampire queen who first appeared in our Sacred Six series, was one of perhaps a legion of Drac's ex-wives. Enraged by jealousy, Cadiratra set out to kill Drac by infecting the local villagers with a virus. Once Drac fed on any of the locals, he contracted the virus and, in our issue #23, Drac died.

Just beforehand, one of the legendary Van Helsing's, who'd become a Dracula drone, took a sample of Drac's blood. But Cadiratra defeated Van H and smashed the blood sample, not realizing she hadn't prevented Dracula's resurrection but had guaranteed it by making the "Dracula Virus" airborne.

Over the generations, lots of people have been infected with this virus, which the cultists can literally smell on the host.

Twenty years ago, Vampirella saved a seven-year old orphan who was being hunted by disparate extremists—vampire groupies who wanted to worship him, vampire hunters who wanted to kill him—because the boy was infected with The Dracula Virus.

Vampi ultimately saved the boy, Matty Ecsed, and a CDC doctor injected the boy with an inhibitor that at least temporarily arrested the virus. Vampi then hypnotized Matty into forgetting the entire episode.

Today, young Matty is rookie FBI Agent Matt Ecsed, who is being tortured by nightmarish visions of Count Dracula. Matt is initially hunted by Shane The First Man, a deranged former Apollo astronaut (long story!) with whom Vampirella had spent eight months trapped on an alternate version of Earth (longer story! see what you miss by not keeping up?). Matt would be Shane's grandson if Shane were from our earth, and once Vampirella learned Shane was out to kill Matt, presumably to destroy the virus, she intervened to stop Shane and rescue Matt—who has no idea who either Vampirella or Shane The First Man are.

Matt is, therefore, thrown into the deep end of the pool when he is kidnapped by Vampi and her allies for his own good while Vampirella consults some vampire voodoo folk about how to save Matt from becoming Dracula.

The answer is a blood ritual and a bonding, thus Vampirella must convince a reticent and disbelieving Matt to marry a woman who is, for all intents, a perfect stranger to him.

This is a unique take on the Dracula story, yet you're also using bits and pieces of the established canon. Such as the newlyweds travelling to Transylvania. How are you approaching that balance?

Well, I think if you're gonna do Dracula, then do Dracula—go the whole nine yards. The honeymoon in Transylvania serves a purpose: Vampirella needs soil from Drac's homeland to complete the blood ritual.

I prefer to keep all the Dracula folklore in place and in play, which contrasts against our favorite space vampire who is less constrained by things like daylight and garlic cloves.

Many talented artists have joined you so far across Vampirella and Sacred Six, including Ergun Gunduz most prominently. For this series you're teaming up with Indonesian talent Donny Hadiwidjaja. How has it been collaborating with him so far?

Donny's layouts and storytelling knocked me out. He has style that is both fresh and classic at the same time. I'm really looking forward to the series and seeing how Donny brings our super unconventional Dracula yarn to life.

Dynamite Entertainment proudly presents an all-new Evil Ernie #1, written by Scott Lobdell and illustrated by Ariel Medel! Featuring two amazing covers: The King of the Undead -- Arthur Suydam and amazing superhero artist Brett (Titans) Booth!

After EARNEST GLECKMAN is mortally wounded, he discovers he must "pay down his new lease on life" by serving as a part time fixer for a death cult. Each time he manifests his dark side as EVIL ERNIE it becomes harder to maintain his tenuous grip on his inherently good humanity

EARNEST GLECKMAN is a good kid with exceptional grades in his senior year at college...his only quirk is the rock band he sings in every Saturday night. He enjoys the rock esthetic and "dressing the role" if not acting like a nihilistic punk.

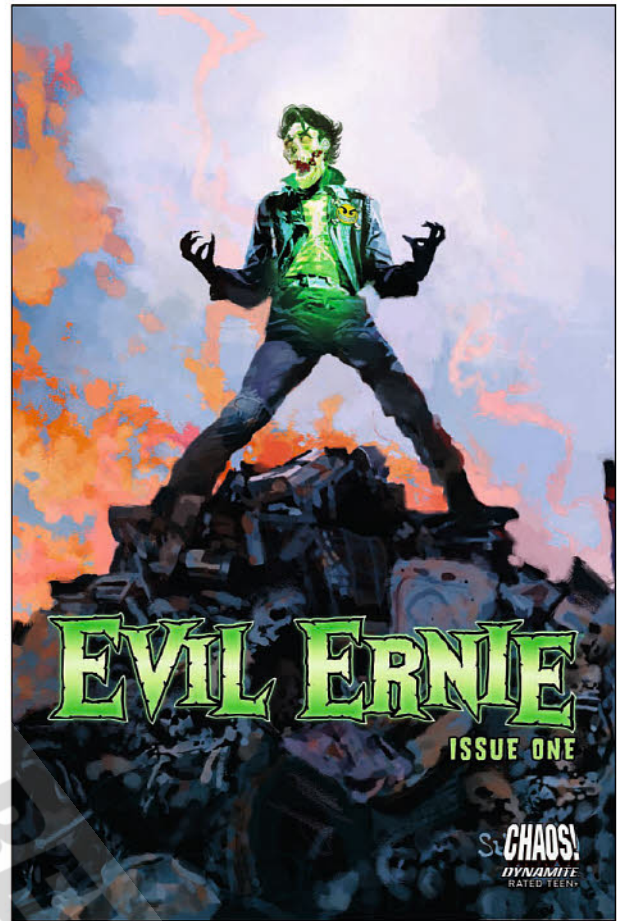

All that is changed when he assumes the role of...

EVIL ERNIE who is the polar opposite of EARNEST. ERNIE is vicious and cruel and sadistic as he employs all manner of torture or murder (or oft-times both!) against his targets.

EARNEST is stable, good, focused. ERNIE is a chaotic, evil, anarchist.

Evil Ernie first appeared in December 1991! Celebrate 30 years of CHAOS!

Scott Lobdell rose to the top of the 1990s on Marvel's X-Men related titles, specifically Uncanny X-Men, the main title itself, and the spin-off series that he conceived with artist Chris Bachalo, Generation X. He also had writing stints on Marvel's Fantastic Four, Alpha Flight, and The Adventures of Cyclops and Phoenix miniseries with artist Gene Ha. One of the premiere comic book writers of the nineties, Lobdell won 2 consecutive Wizard Awards for his ongoing work on Marvel Comics' Uncanny X-Men. He is also a prolific creator of other self-published titles such as "Ball & Chain", "Hellhole", and "The Stray". In 2017, he wrote the smash horror film Happy Death Day.

SCOTT LOBDELL REVEALS HIS TAKE ON THE EVIL ONE!

Evil Ernie has through the years been a completely despicable being, but he's always had that tiny shred of humanity that makes him relatable. How are you approaching this infamous character?

I think at his core, Ernie is what happens when you take away even the opportunity of love away from someone.

He is in love with Death, a woman who will never be satisfied with his devotion and offerings. If he kills a person in her name -- she's not impressed. A hundred people? Yawn. A hundred thousand? Her only reply might be "What have you done for me lately?"

Ernie is someone who will never know love. What could be more evil than that?

You're introducing Ernest Gleckman, a college kid in a rock band. How drastically is his life about to change when the entity of Evil Ernie becomes a part of his life?

In regards to the classic monsters of yore, I was always more interested in the Jekyll and Hyde and Lon Chaney Jr.'s werewolf movies -- where the hero had to deal with being the living vessel of evil and death and destruction. (Classic Dracula and Frankenstein, not so much.)

So, in writing this story I really wanted to examine what happens when the nicest guy in the world finds himself inextricably linked with a creature of pure evil.

Ariel Medel will be drawing the story. How has it been seeing him bring your script to the page and collaborating?

I haven't been this energized in years. I think I wrote the first three issues over one weekend!

When Nick asked me to take a swing at Ernie, I brought Ariel with me. Whenever new pages come in, I get misty-eyed thinking about how I'll never get the chance to work with him after this because he's going to run off and be a gosh-darned superstar!

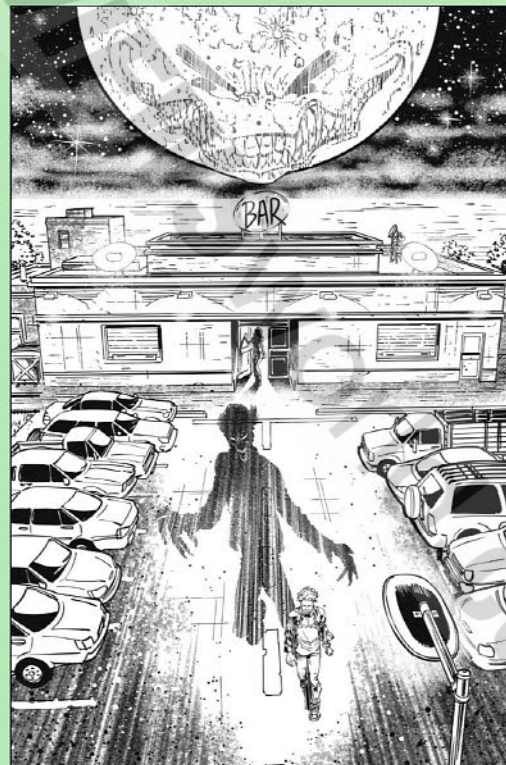

Speaking of superstars, you and Brett Booth (who provided the cover for issue #1 of Evil Ernie) have worked together on a bunch of projects like Teen Titans and Flash Forward. His style is perfect for this character. What's it like forming these tight bonds with other creators across titles?

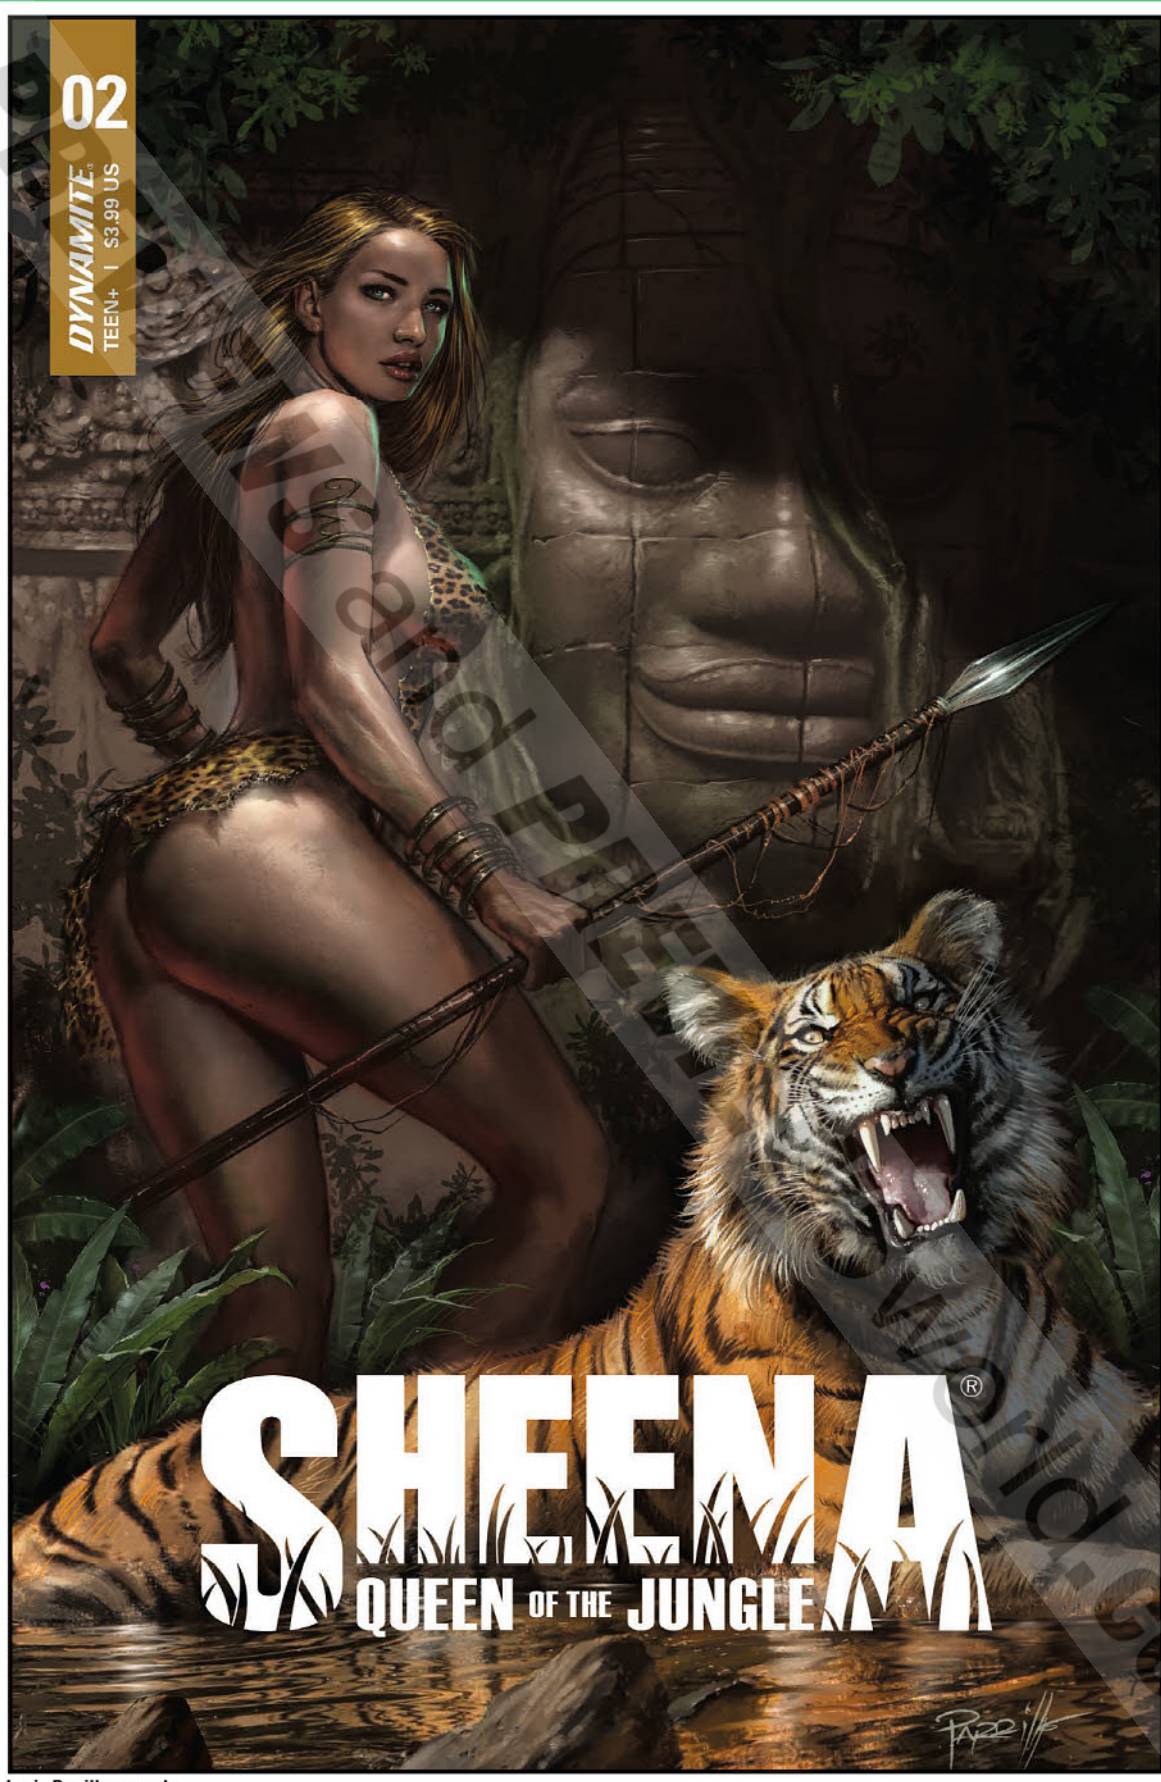

The first time Brett and I worked together was on the Teen Titans in the New 52... and we loathed each other! Brett was slow to warm to the idea of re-imagining the characters (the fights we had over those wings! Ha!). Poor Bobbie Chase had to field so many calls with each of us asking her when the other would be fired!

Years later we just love each other. Do I love his art? Absolutely! Do I love his good heart? You bet! But I'm also blown away he runs something of a greyhound sanctuary in his backyard. So just know, whenever you buy a book by Brett or pay for a commission, a lot of that goes to providing a loving sanctuary to rescued dogs who have settled at the Casa Booth.

Brett Booth is the opposite of Evil Ernie and I'm proud to call him my friend.

SKY CAPTAIN & THE WORLD OF TOMORROW burst into the sky and onto theater screens in 2004. With it came groundbreaking methods and techniques that would change the way movies were made.

The real story behind the film began many years earlier and in Kevin Conran's Art of Sky Captain & The World of Tomorrow, fans will be treated to behind-the-scenes stories marking the movie's unique journey to the screen.

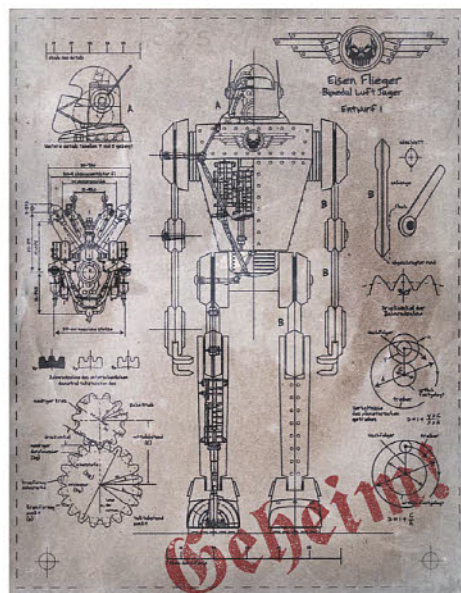

As the first of its kind, this landmark film embraced the look and feel of the old serials even as it pushed the boundaries of modern filmmaking technology. The film would inspire a whole new generation of creators eager to adopt its innovative techniques—techniques that are now commonplace in every studio in Hollywood and around the world.

• A CASE OF MULTIPLYING BUBBLEHEADS •
BUILDING AN AMPHIBIOUS SQUADRON

Commander Franky Cook's bubble helmet and backpack were heavier than they looked and Angelina was an absolute trooper zipping around in that thing all day.

With only three sets of helmets and tanks, the idea was to shoot several different women and duplicate them in post to fill out the much larger Amphibious Squadron.

I had the chance to direct the second unit the day we shot our bubble-helmeted heroes, and it

was some day! We had seven or eight actresses suited up and ready to go. The plan was for three of them to run across the stage, swap their tanks and helmets to the next actress and have them run back. Seemed easy enough. The thing is, only one or two of them could actually run because the packs were so cumbersome.

So that meant that in the final film, there were only one, maybe two, women making up the entire Amphibious Squadron.

• CITIZENS OF TOMORROW •
CAPT. JOE SULLIVAN

We imagined Joe Sullivan as the founder and commander of an elite group of pilots known as the Flying Legion. His "Army For Hire" became an asset to the free world in the 1930's. Joe's skill as a pilot would go on to earn him the call-sign "Sky Captain."

Researching WWII fighter pilots, I came across a little detail I just loved. It seems some pilots flew with a pistol tucked in their boot so they would have easy access to the gun from a seated position. After seeing the idea in this sketch (opposite page), Kerry wrote a scene where a squiggly robot dangles Joe upside down. When Dex's ray guy peters out, Joe pulls a pistol from his boot and blasts the robot in its cyclops eye.

I really enjoy the research part of design, but it's one of those parts of the job that seems undervalued at times.

• ROBOTS OF TOMORROW •
THE SQUIGGLY-ARM ROBOT

The Squiggly-Arm robot is probably my favorite. Maybe. Probably. I loved the glass bubble over his head. I can't explain why he needs it, I just thought it looked cool. I also thought long and hard about how to make this one feel very different from the big robot. I wanted him to move differently, which explains his zig-zag legs. Knowing this robot would come in through the smoke and dust of the damaged hangar. I wanted a creepy, delicate movement to contrast with those giant bots plodding down 5th Avenue in the film's opening.

She is known only as "the Lady." Her identity, her origins, even her rise to power, are shrouded in utter mystery. And make no mistake, that's purely intentional. That she rules increasingly larger portions of the galaxy with an iron grip and a wave of fear is not remotely in question. Why she wants to wipe out every human is. And why Barbarella is targeted to be the first and most important human to die is the deadliest question of all!

THE UNTOLD STORY OF THE LAST VAMPIRE SLAYER!

Can a lone Slayer save what's left of humanity?

Buffy Summers is the last Slayer. Now in her 50s, she wages a one woman fight against the forces of darkness, who prey on humanity in the daylight unimpeded thanks to a magical catastrophe that has nearly blotted out the sun.

The same disaster robbed Buffy of her friends and ended the Slayer-line, forcing her into an endless guerilla war. That is, until she stumbles across something she hasn't seen in a long time — hope, in the form of a prophecy and the young girl who carries it.

The Multiverse explodes as writer **Casey Gilly** (*Femme Magnifique*, *You Died*) and artist **Joe Jaro** (*Firefly*) bring you a dystopian tale of Buffy Summers as you've never seen her before for fans of *Wonder Woman: Dead Earth*, *Batman: Last Knight On Earth*, and *Future State: Wonder Woman*.

FOR FANS OF LORD OF THE RINGS, GAME OF THRONES AND LOVERS OF DRAGONS WORLDWIDE!

A WAR IS A DIFFICULT THING TO KILL

The Second World War is almost over, but no one seems to have told the Germans — as Royal Air Force pilot Jamie McKenzie finds out when he's assigned to deadly shipping strikes along the enemy coast. Flying the Mosquito fighter-bomber against heavily armed targets is dangerous enough at the best of times, but after incurring the wrath of his vengeful commanding officer, Jamie is assigned the most unpopular navigator in the unit — not to mention the least reliable aircraft. Worse still, the commander's sights are firmly set on Jamie's beautiful young wife, Beth.

Writer Garth Ennis (*A WALK THROUGH HELL*, *Preacher*, *The Boys*) and artist Keith Burns (*War Stories*) reunite after the success of their series *Johnny Red*, presenting another tale of World War II aerial combat: featuring skies black with flak and enemy fighters, nail-biting low-level action, and the dark humor of men whose lives can be snatched away at any second...OUT OF THE BLUE.

This 144-page collection contains both volumes of the WWII aerial combat classic.

Aspen Comics' largest and most ambitious release of 2021 is now available in two action-packed chapters!

Aspen Matthews was born of two worlds—The OCEAN and LAND. Now, deeper within the confines of The Earth—a new threat has risen, one that will reclaim the eco-system for those of much more powerful descent.

Following their quick dispatch at the hands of the newest threat to the Fathom Universe, Aspen Matthews and Doc Blue must re-group and figure out a new way to confront this God-level threat. However, the pair discovers that only two of them are not enough to save the world—and the Blue and Humans must combine forces in order to save the threat of existence for both civilizations. The largest event in Fathom's history culminates right here!

Featuring covers by Michael Turner, Alex Konat, and Sanju Nivangune, this is THE biggest Fathom direct market launch of 2021!

Both are heroes of their own story, and the future may depend on whether or not trust can be found between them.

In the year 2056, robots have replaced human beings in the workforce. An uneasy co-existence develops between the newly intelligent robots and the ten billion humans living on Earth. Every human family is assigned a robot upon whom they are completely reliant. What could possibly go wrong? Meet the Walters, a human family whose robot, Razorball, ominously spends his free time in the garage working on machines which they're pretty sure are designed to kill them in this sci-fi satire from Mark Russell (*The Flintstones*, *Second Coming*) and Mike Deodato Jr. (*The Amazing Spider-Man*, *The Resistance*). It's the grand finale for Marjorie Finnegan. She's a temporal criminal. What more do you need to know?

Oh, all right then: all Marj wants to do is race up and down the time-lanes, stealing every shiny-gleamy-pretty-sparkly she can lay her hands on. But her larcenous trail from the Big Bang to the Ninety-fifth Reich has drawn the beady eye of the Temporal PD, whose number one Deputy Marshall is now hard on our heroine's tail-- and taking things extremely personally. Worse still, Marj's worthless creep of an ex and his even scummier partner have seen an angle of their own in all this, and now intend to use her time-tech to change history for their own benefit. Marj's only ally? A guy called Tim. And he's just a head.

I mean come on, what use is just a head...?

EVERFROST TP

writer RYAN K LINDSAY | artist SAMI KIVELÄ | colors LAUREN AFFE

\$16.99 | 116 pages | Mature

"EVERFROST exists delightfully at the crossroads between science fiction and fantasy. It's beautiful, earnest, and fully realized in a way that few modern comics manage to be. Prepare to be enraptured by its wonder."

-Lonnie Nadler (Black Stars Above, X-Men, Undone By Blood)

Van Louise retired to the ice coast so she could quietly find a way off planet from a world on the wrong side of societal collapse.

She biohacks a dead leviathan to orchestrate passage away into the universe, but her plans are about to get chewed up by a mounting war between the Warlords (violent gatekeepers for the global ruling party) and the Bloom (who risk extinction living out on the water) as well as a family reunion with her son she hasn't seen since he died in her arms when he was a child.

Join writer **Ryan K Lindsay** (ETERNAL, NEGATIVE SPACE), artist **Sami Kivelä** (ABBOTT, UNDONE BY BLOOD), and colourist **Lauren Affe** (THE WITCHER, STRANGER THINGS), as they drop an absolute bomb of sci fi insanity and heartbreaking emotion.

"A truly unique sci-fi story with a fantastic voice driving the narrative. Great story, great art."

-Michael Moreci (Barbaric, Wasted Space)

PRAISE FOR EVERFROST

"Lindsay and Kivela have hit gold. It works both as a morally grey and complex intimate drama and rip roaring sci-fi/fantasy which feels fresh and unique."

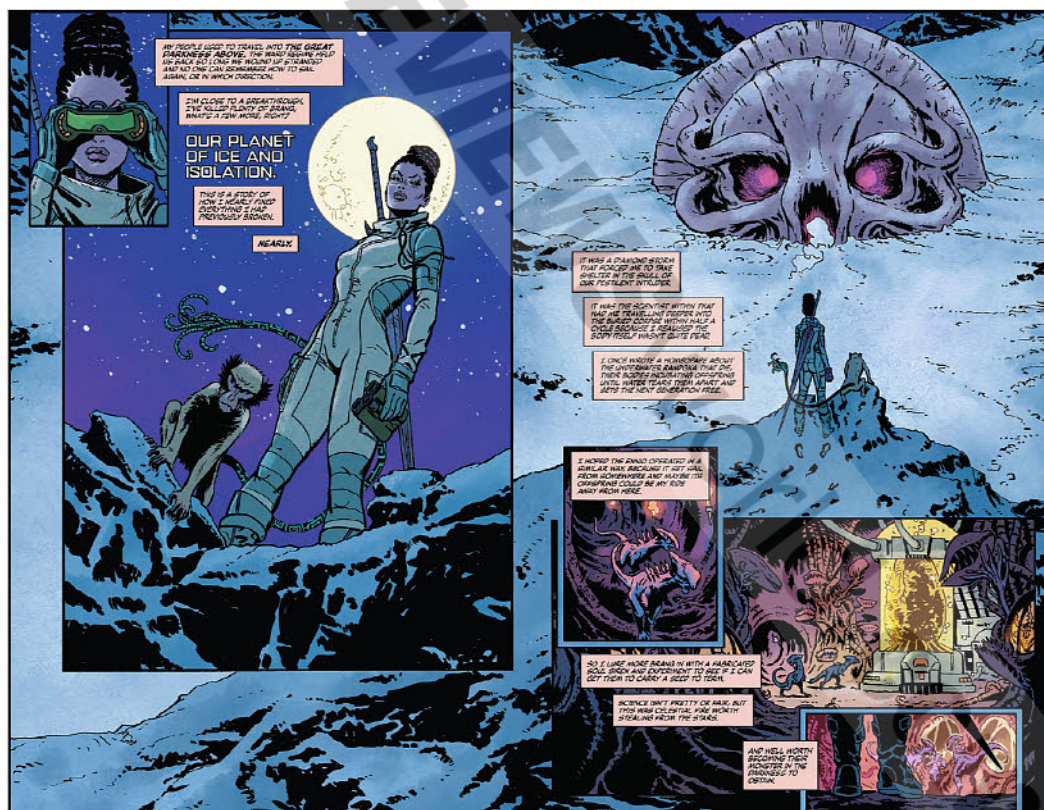

-Christian Ward (Black Bolt)

"Everfrost is what happens when science is used as a cover for the guilt associated with past sins. Bundle up for the ride."

-Erica Shultz (Daredevil)

"Every page is a delicious treat that leaves one craving more as this bizarre and deadly and strange new world is developed panel by panel."

-Scott Redmond, Comicon

THE MOUNTAINS OF MADNESS GN

(W/A) Adam Fyda

In 1932, two years after the initial Antarctic expedition, another sets off to try and discover exactly what happened on that fateful trip. Before it leaves, a stranger gives a notebook to the expedition director, Howard Pym, and implores him to read it before they reach their destination. SPOTLIGHT ON

**COME OVER, COME OVER HC**

(W/A/CA) Lynda Barry

Lynda Barry captures all the glorious magic and excruciating pain of junior high school in this *Ernie Pook Comeek* collection from the early 90s. The star of this collection is 14 year old Maybonne who relays the angst and insecurity of life through hand scrawled diary entries, class assignments, and letters, in cursive with doodle and bubble letters. Barry deftly portrays the capricious nature of teen friendships, adolescent peer-pressure, and the kill or be killed nature of a middle school's social scene in her signature style. (W/A/CA) Travis Dandro

From a child's-eye view, Travis Dandro recounts growing up with a drug-addicted birth father, alcoholic stepdad, and overwhelmed mother. As a kid, Dandro would temper the tension of his every day with flights of fancy, finding refuge in toys and animals and insects rather than the unpredictable adults around him. Dandro perceptively details the effects of poverty and addiction on a family while maintaining a child's innocence for as long as he can. *King of King Court* spans from Travis's early childhood through his teen years, focusing not only on the obviously abusive actions, but also on the daily slights and snubs that further strain relations between him and his parents. ANIMALS WITH SHARPIES HC

(W/A/CA) Michael Dumontier, Neil Farber

Animals With Sharpies is a collection of paintings with hand-lettered texts. In each painting, Michael Dumontier and Neil Farber have depicted an animal holding a sharpie, ostensibly writing a message. These messages are varied in nature: they are political and religious tracts, confessions, recipes, arithmetic problems and more. Above all, these paintings are funny, but they are also startlingly poignant and jarring for the humanness of the suffering and longing depicted in these animals' simple words. (STK610601)

RED ROOM: TRIGGER WARNINGS #1

By Ed Piskor

\$3.99 / Comic Book / 32 pgs / Full Color / 6.6" x 10.3"

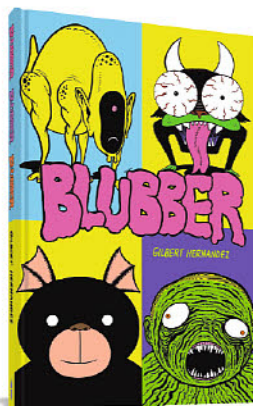

The best selling, most talked about series of 2020 kicks off its second four-issue "season" with another self-contained mini-masterpiece of monthly comics storytelling. In this issue, the Decimator presents... The Rat Queens! And unfortunately for them, they are front and center

in his most horrific red room broadcast yet! As seen on the YouTube channel sensation, Cartoonist Kayfabe, from the creator of *X-Men: Grand Design* and *Hip Hop Family Tree*!

BLUBBER

By Gilbert Hernandez

\$19.99 / HC / 160 pgs / BW / 6.5" x 10"

Blubber, which collects the first five issues of Gilbert Hernandez's absurdly X-rated comic book series, is a showcase for the most transgressive of Hernandez's short stories. It is a howlingly funny book, filled with a rogues gallery of colorful monsters and characters that echoes the sheer visual imagination of Jack Kirby. *Blubber* is a defiant provocation to those unable to appreciate the difference between cartooning and obscenity. As R. Crumb said, "It's only lines on paper, folks!"

AFTERNOON AT MCBURGER'S

By Ana Galvañ

\$16.99 / HC / 64 pgs / FC / 6.75" x 9.5"

Ana Galvañ manages to create a vivid world that is both a recognizable and alien depiction of adolescence. There are mean girls, and fast food, and BFFs with crappy older brothers. Yet, it's also rife with futuristic flourishes like little robotic eggs that walk and talk. At its heart, however, *Afternoon at McBurger's* is a story about friendship, innocence and the discoveries of adolescence, with layers to be revealed only through multiple readings.

BETA TESTING THE ONGOING APOCALYPSE

By Tom Kaczynski; Foreword by Christopher Brown

\$24.99 / HC / 160 pgs / FC / 6.25" x 9"

Tom Kaczynski's graphic short stories trace a complex space-time trajectory from the smallest corporate cubicle out to farthest fathoms of the multiverse. This collection, originally published in a smaller edition a decade ago, has only proven itself more prescient to our contemporary times. For

this new edition, Kaczynski created the original stories "Billion Dollar Budget" and "Rediscovery of the Real" and annotations. There's also a new foreword by science fiction writer Christopher Brown (*Tropic of Kansas*) and an entirely new cover design.

SQUEAK THE MOUSE

By Massimo Mattioli

\$29.99 / HC / 144 pgs / FC / 10.25" x 14"

In the hands of renowned Italian cartoonist Massimo Mattioli, the classic cat versus mouse premise is infused with a whole new perverse and anarchic energy. Laying slasher horror onto wacky cartoon violence, Mattioli's characters embark on a bloodthirsty rampage, leaving a trail of mangled corpses and pools of blood in their wake. And the comic's bloodshed is not to be overshadowed by its crude humor and over-the-top sexcapades. Best known today as the precursor to the Itchy and Scratchy characters in *The Simpsons*, this cult classic comic series is finally coming back into print in a gorgeous and affordable hardcover.

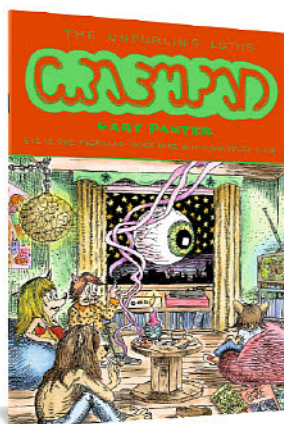

OTHER LIVES

By Peter Bagge

\$17.99 / SC / 136 pgs / BW / 7" x 10.5"

Other Lives follows three former college classmates whose fabricated online identities lead to their "real" lives colliding years later. *Other Lives* is Bagge's first post-*Hate* original graphic novel and has been out of print for several years. Fantagraphics is proud to publish this new edition, at a time when Bagge's oeuvre is enjoying renewed interest following the release of *The Complete Hate* in late 2020.

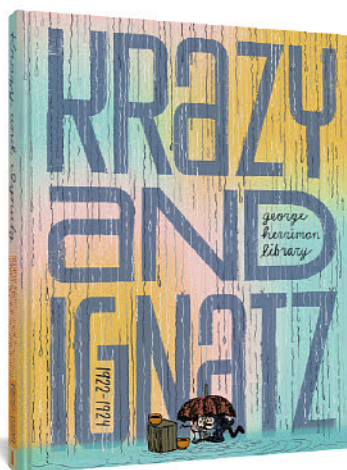

CRASHPAD #1

By Gary Panter

\$5.99 / Comic Book / 36 pgs / BW / 6.6" x 10.3"

Crashpad is Gary Panter's psychedelic ode to the underground comics that inspired him: creators such as Zap's R. Crumb, Victor Moscoso, and Robert Williams, presented as a standard black-and-white (with color covers) underground comic book. Every new work by the legendary Panter is an event, and *Crashpad* is an exhilarating contribution to the tradition of underground comix.

THE GEORGE HERRIMAN LIBRARY: KRAZY & IGNATZ 1922-1924

By George Herriman

\$39.99 / HC / 176 pgs / BW / 11.3" x 11.75"

One of the most renowned and celebrated comic strips in the art form's history treks on through the 1920s, with all its madcap animal inhabitants in tow. In this volume: precarious coconuts, incarcerated elephants, and witty weather patterns. Krazy Kat takes a swing at singing, astronomy, and starring in ... his own comic strip! It also features essays by Herriman scholars, plus ten rare full-color experimental strips by Herriman.

BLACK CANARY: BREAKING THE SILENCE SC

(W) Alexandra Monir

Dinah Lance was eight years old when she overheard the impossible: the sound of a girl singing. It was something she was never meant to hear—not in her lifetime and not in Gotham City, taken over by the vicious, patriarchal Court of Owls. Now seventeen, Dinah can't forget that haunting sound, and she's beginning to discover that her own voice is just as powerful. But singing is forbidden—a one-way ticket to Arkham Asylum. Fighting to balance her father's desire to keep her safe, a blossoming romance with mysterious new student Oliver Queen, and her own need to help other women and girls

rise up, Dinah wonders if her song will finally be heard. And will her voice be powerful enough to destroy the Court of Owls once and for all? (STL207734) (C: 0-1-0)

Captain Haddock made his first appearance alongside Tintin in 1941, and in the course of the 80 years that followed, has gone on to become one of Hergé's best loved characters. "Blistering barnacles" and "thundering typhoons" have passed effortlessly from the pages of Hergé's comics into the public consciousness. This brand-new book explores in joyful detail the Captain's legendary tirades and is the perfect way to discover, or rediscover, this extraordinary character and his unforgettable adventures. **BRAINCOMIX GN**(W) Jean-François Marmion
(A) B Monsieur

The human brain is the most complex structure in the universe. It's as awe-inspiring as it is intimidating, when you're not an expert. So how can we get to know the brain? By asking him to introduce himself, of course! In *BrainComix*, the brain is the star of the show, hamming it up in a televised interview conducted by the intrepid journalist Julia Mojito. Without jargon, and with plenty of humor, we come to understand how this spongy, bloody organ acts as our guardian angel, filters our perceptions, and shapes the stories we tell about the world and about ourselves. This book contains content deemed of
safe appeal to readers of All Ages.

Winter is here, and snow covers the woods like a cold blanket. Mr. Fox has his enormous scarf to keep him warm, but it is almost TOO big -- he can't help but trip over it and get caught on tree branches all the time. But as embarrassing as that is, it is even more humiliating when trying to catch the eye of a beautiful lady!

A MESSAGE FROM THE AUTHOR

"I have a deep passion for animation, especially for the golden age of Disney with its handmade drawings, watercolored backgrounds, unforgettable anthropomorphic characters. Beneath the Trees is my modest tribute to the films and artists who made me dream when I was little and made me want to draw.

Each book in the series was written like a short animated film that I would have liked to see in the cinema before a great movie classic... but on paper! I tried to rediscover a little of the magic of my childhood with these animal characters who live deeply human stories, with themes like helping each other and love which resonate in each of us.

Maybe this will bring back fond memories to readers my age, and offer new memories for their children...

Above all, I hope that you will have the same pleasure as I did in strolling through this little corner of the forest throughout the seasons to meet the folks beneath the trees!

HEADS UP!
 HIGHLY ANTICIPATED
 SERIES!

It's June 20th, 1947. Former cop Clint Braddock is drinking at a bar on Sunset Boulevard when he gets a call from his ex-girlfriend, Beverly. Bugsy Siegel's just been murdered, and she found the body. She's terrified and needs his help. Fast. Braddock arrives to find the aftermath of a violent, sadistic murder. Not your typical mob hit. It almost looks like the work of...Eaters. Amidst the carnage, Braddock finds evidence that someone may be trying to pin the murder on him. Braddock is part Eater, and he's spent years keeping his true nature hidden. But it looks like someone knows what he is, and is using it to implicate him in the biggest crime to hit Los Angeles in decades. Now, the seat of power in the criminal underworld is up for grabs, and rumors of a Vampire crime syndicate emerging as major players look disturbingly plausible. As Braddock is pulled deeper into the hunt for Siegel's killer, he'll find he's either the ideal ally for the Vampire cause, or the perfect weapon to stop it. It all depends on where his loyalties lie.

When Erin, Caitlin's mother, discovers her daughter can control a demon, she is outraged. In her mind, only a Great House has the right to such power, but who will listen to a poor Irish woman? House Lowell will. For Alice Lowell has inherited an old Puritan journal which describes how to find and enslave a demon, but she needs a psychic to do it. Kidnapping Caitlin is the first step in a plan to rid her husband's House of debt. But with a demon to do their bidding, her ambitions will be limitless. The Book of Demons can be read as a standalone story, but also acts as a continuation of the hit comic "Boston Metaphysical Society: Ghosts and Demons".

BOSTON METAPHYSICAL SOCIETY TPB

The year is 1895. Imagine an alternate Steampunk history where ghosts and demons are a normal part of life. Families known as "Great Houses" control the economy of the Great States of America and the middle- and lower-class Irish's sole purpose is not to only serve them, but to rid their lives of supernatural beings. This is the story of an ex-Pinkerton detective, a spirit photographer, and a genius scientist who work together to battle these supernatural forces. They are the Boston Metaphysical Society. Wish them luck. They are going to need it.

AMERICAN COMIC BOOK CHRONICLES: 1940-44 HC
It was a time when America's entry into World War II was presaged by the arrival of such patriotic do-gooders as Will Eisner's Uncle Sam, Harry Shorten and Irv Novick's The Shield, and Joe Simon and Jack Kirby's Captain America. It was when teenage culture found expression in a fumbling red-haired high school student named Archie Andrews. But most of all, the first five years of the 1940s was the age of the "packagers" when studios headed by men like Harry A. Chesler, Will Eisner, and Jerry Iger churned out material for a plethora of new comic book companies that published the entire gamut of genres, from funny animal stories to crime

DRAWING THE PAST VOLUME 1: COMICS AND THE HISTORICAL IMAGINATION IN THE UNITED STATES SC

Drawing the Past Volume 1: Comics and the Historical Imagination in the United States provides a map of current approaches to comics and their engagement with historical representation. The first section of the book on history and form explores the existence, shape, and influence of comics as a medium. The second section concerns the question of trauma, understood both as individual traumas that can shape the relationship between the narrator and object, and historical traumas that invite a reassessment of existing social, economic, and cultural assumptions. The final section on mythic histories delves into ways in which comics add to the mythology of the US. (STL206194) (C: 0-1-1)

DRAWING THE PAST VOLUME 2: COMICS AND THE HISTORICAL IMAGINATION IN THE WORLD SC

Contributors examine the many ways in which history worldwide has been explored and (re)represented through comics and how history is a complex construction of imagination, reality, and manipulation. Through a close analysis of such works as *V for Vendetta*, *Maus*, and *Persepolis*, this volume contends that comics are a form of mediation between sources (both primary and secondary) and the reader. When it comes to history, stretching the limits of the imagination only serves to aid in our understanding of the past and, through that understanding, shape ourselves and our futures. MASTER OF MYSTERY: THE RISE OF THE SHADOW SC

(W) Will Murray

(A) Graves Gladney, Edd Cartier

(CA) Joe Devito

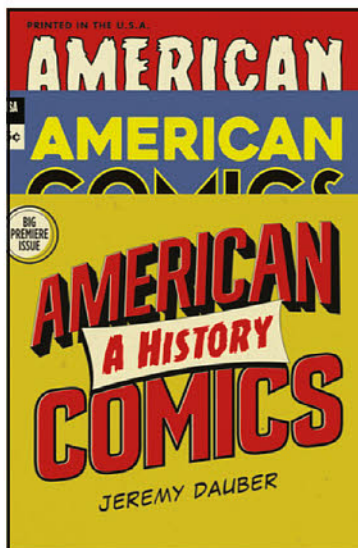

Who is The Shadow? How did he come to be? Between 1930 and 1954, The Shadow was a dominant figure in American popular culture. A multi-media sensation, he emerged from the creative cauldron of the earliest days of radio drama, and soon migrated to magazines, comic books, film and eventually paperback books. Only Superman and Batman, who were created a few years later, rivaled The Shadow in global public recognition. Popular culture historian and novelist Will Murray explores radio's first superstar and talks to the writers and artists who took a nebulous radio personality and brought him to blazing life in the pages of more than 300 classic pulp novels. AMERICAN COMICS: A HISTORY HC

(W) Jeremy Dauber

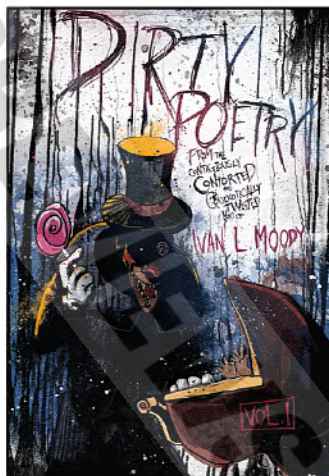

Comics have conquered America. In *American Comics*, Columbia professor Jeremy Dauber takes readers through their incredible but little-known history, starting with the Civil War and cartoonist Thomas Nast, creator of the last-ling and iconic images of Uncle Sam and Santa Claus; the golden age of newspaper comic strips and the first great superhero boom; the moral panic of the Eisenhower era, the Marvel Comics revolution, and the underground comix movement of the 1960s and '70s; and finally into the twenty-first century, taking in the grim and gritty Dark Knights and Watchmen alongside the brilliant rise of the graphic novel by acclaimed practitioners like Art Spiegelman and Alison Bechdel. Dauber's story shows not only how comics have changed

over the decades but how American politics and culture have changed them. (STL207996) Item has been previously solicited in *New to Order*. (C: 0-1-0)

TRANSFORMERS ULTIMATES ACTION FIGURES

From Super7. The highly-articulated *Transformers ULTIMATES!* figures are inspired by the vintage toy and comics and made to order. *Megatron* (8" tall) is the big bad of the Transformers universe for a reason. Actually, many, many reasons. Tremendous strength, military acumen, and ruthless aggression meant to inspire terror are just a few of his "finer" qualities. One of the most powerful and feared of all Autobots, the only challenge beyond *Grimlock's* capabilities is basic pronoun usage, but grammatical shortcomings aside, the Dinobot leader (9" tall) can go toe-to-toe with even the mightiest of Decepticon foes on the battlefield. Master of the Cybertronian martial art of Metallikato, *Bludgeon* (8 1/4" tall) is a highly skilled, ferocious Decepticon warrior. *Tracks* (7 3/4" tall) is totally awesome, and considering that his non-robot transformations are a sports car and a jet plane, it's kinda hard to disagree with him. Add these figures to your *Transformers ULTIMATES!* collection today! (STL206253) Item has been previously solicited in New to Order. Scheduled to ship in July 2022. Kaldheim ("Cold Home" in Norwegian) is the 86th *Magic* expansion and is set on the previously unseen realm of the same name. It is a cold, inhospitable land, so players can expect many new spells, creatures, and locations that play up this aspect, as well as possible nods to classic Norse mythology. Each booster display includes 36 foil packs, each containing 15 random cards. (STL179376) (C: 0-1-2) NOTE: Available only within US and territories.
